# Understanding Smart City : Definition and Structure

# Korea's Experiences

Types of u-City

Scope

# 

Øu⁻도시통합 관계센터

### u-City Operating Center

시 D 월 월 시 D 두 개 우 문 시 D 월 일 시 D 두 개

# Problems in u-City Projects

#### What should be improved?

- little difference from other cities
- developer perspective
- focus on city function
- high costs and silos
- little role of citizen

# Lessons from Experiences

Value up	Cost down
1 Citizen Perspective	Open Platform
② Service-focused	Oitizen as a Sensor
③ Innovation-driven	Scalable approach
(4) Data Sharing	Smart City Lab <ul> <li>collaboration with other cities</li> </ul>

# Misunderstandings

#### Misunderstanding I

## Traffic Information in Realtime

경희대학교

Loirlin Tol

#### Electronic Payment for Taxi

#### Misunderstanding 2

Smart City is based on open and interactive platforms?

<relationship>

# Concept of Smart City

# Smart City is " a City as a Platform"

Enabling citizen to do the right things

**Public**
